

Project Title: Testing Performance Measures & Identifying Strategic Planning Issues for the Alberta Public Library Electronic Network (APLEN)

Investigator(s): Charles R. McClure

Funding Agency: Alberta Library

Award Dates: September 1999 – August 2001

Award Amount: \$94,804

The Alberta Public Library Electronic Network (APLEN) embarked on an exciting and major initiative to link a range of educational and information services and libraries together via a high-speed electronic network. The initiative provided a range of innovative services and resources. The overall goal of this project was to develop, define, and implement a number of performance measures and quality standards that could be used to gauge the success of the APLEN.
